1 INTRODUCTION

Using the knowledge in this book requires you to believe in magick. If you don't believe, please take a moment and suspend your disbelief before reading on. Common sense tells us not to believe in things without evidence. We develop our beliefs from what we are taught and the world around us. We take for granted that our perception of reality, our lives, other people, and ourselves is incredibly subjective. There is more wiggle room, or grey areas, in life than we realize where it is more than possible to effect change in unconventional ways. Unless you believe in magick you may never see it

For magick to work, you need to believe in two things. That the spell is possible, and that you can do magick. If you go into the ritual with the thought that it might not work, nothing will happen. People new to magic often fail when casting spells because of their own doubts about magick. The reason this is is because magick is an act of will, of utilizing your will to create change of some kind. In the moment of the magickal working, or spell, you need to be able to focus all your mental energy and will upon the object of your spell. If you have doubts, they will only serve to distract you. If you are skeptical, you will not throw the full force of your will into the work. This is why it matters to examine any fears or doubts you have beforehand.

Some important considerations before we continue:

* A journal is a must. Write in detail about what you want to accomplish, along with the date and time of your ritual. This is not only to be able to look back on a record of your magic, it also increases the energy of the

spell as you put it out into the universe.

* The power of magick is not 100% ours to control. This means we have to take action once the ritual is finished and the stars have aligned. Don't sit on your butt waiting for results to roll in- make your life happen!

* Successful magick will work in a way that can seem like coincidence. By putting ourselves into situations where our desired outcome can occur we can take advantage of this.

The knowledge of magick has been kept a secret from non-magicians. So for the beginner it can take time to learn. Fortunately there are paths laid out by magician's before us. Probably the first system of magick was Astrology.

The Sun controls the seasons and provides energy for life on Earth. The Moon causes the ocean tides, and influences how we sleep at night. Still, science believes astrology has no influence on our lives.

But science has never found consciousness. Consciousness runs through the nerves in our bodies like electric cables. In the same way, the planets in astrology are networked together with light, and consciousness rides this network like a spiritual highway.

A consideration when tapping into the Tree of Life for spell or ritual is what Planets are in which Constellations of the Zodiac. The Constellations are always moving throughout the year as well as the Planets. When a Planet is in alignment with the Sign of a Zodiac, the planet is said to be "in" that Sign.

There is a third element to be considered in using this type of energy. The sky is divided into what are called "Houses". Each house is related to a specific Sign and shares the same qualities of that Sign-

For example, the first House shares qualities of Aries, the second shares qualities of Taurus, etc. So when reading a chart the houses are described as representing specific areas of our lives. For example having Gemini in your first House means that your outward personality would be seen by others as fun, witty, and gregarious. The Planets travel through every Houses as the year goes on. This provides many interesting opportunities for working magick.

Houses and their Influence, a Quick Reference:

First House

Ruled by Aries & Mars

Second House

Ruled by Taurus & Venus

Third House

Ruled by Gemini & Mercury

Fourth House

Ruled by Cancer & Moon

Fifth House

Ruled by Leo & Sun

Sixth House

Ruled by Virgo & Earth

Seventh House

Ruled by Libra & The Milky Way

Eighth House

Ruled by Scorpio & Pluto

Ninth House

Ruled by Sagittarius & Jupiter

Tenth House

Ruled by Capricorn & Saturn

Eleventh House

Ruled by Aquarius & Uranus

Twelfth House

Ruled by Pisces & Neptune

So, ideally, you would cast spells when planets and signs were aligned into the House that worked best for the spell you are casting. If needed you may decide to wait until the Signs and Planets would bring the influence you desire.

What I find a bit more practical is to note (Using a computer) where the Signs and Planets will be in relation to each other in the next few weeks or even up to the next year- and then consider if there are any workings I would like to perform that would be harmonious with those alignments.

I find that planning my magick that way also gives me a sense of being in tune with the Universe and following its flow. Do what works for you if it pleases you to meticulously plan and wait, then do it. Be yourself.

I would also like to share a few resources that will be useful when reading this book.

The best free astrology software I've found is called Zodiac, and runs for Windows and Linux.

<https://github.com/atten/zodiac>

There is another free tool that runs on Windows, Mac, and Linux. It's called Stellarium. It lets you examine the cosmos in real time from your location as if you were in a planetarium.

2 THE LAWS OF MAGIC

Just like in physics, magick follows certain laws. Each of these laws is linked to one of the Sefirot on the Tree of Life and the 12 constellations of the Zodiac. By following these laws you will find your magick to be more effective and more powerful. Not all of these laws are consciously known or understood by every magician. However you will now be at a great advantage now that you have them!

1. The Law of Knowledge (Kether)

Awareness is power, and Magick is an awakening.
Understanding is required to effect change.

2. The Law of Synchronicity (Chokma)

Nothing is occurring in a vacuum, and everything is connected. The only common denominator in your life is you.

3. The Law of Association (Binah)

Nothing is ever gone. A link exists between whatever has been together before.

4. The Law of Attraction (Chesed)

Like attracts like, but so do opposites

5. The Law of Words (Geburah)

Words are magick, and spirits have names.

6. The Law of Personification (Tiphareth)

Spirits dwell in all things, although some are sleeping.

7. The Law of Evocation (Netzach)

By use of these laws spirits can be summoned,
or awoken.

8. The Law of Identification (Hod)

Spirits or Gods can possess a willing person.

9. The Law of Personal Universes (Yesod)

We are responsible for our own realities.

10. The Law of Unity (Malkuth)

All separation is an illusion.

11. The Law of Pragmatism (Daath)

If an idea or belief serves you then it is true even if it is "false".

12. As Above So Below (Gilluy Shekinah)

Angels need us as much as we need them.

Acts of Magick:

To compliment the Laws of Magick there are also the fundamental Acts of Magick. These also correspond to the Sefirot of the Tree of Life. This list is the basis for common ritual practices across the world.

1. Art or Photography (Kether)

By having a picture or creating the likeness of what you desire.

2. Music, Singing and Chanting (Chokma)

Music directs emotional and magic energy.

3. Erotic Experiences (Binah)

Sex can reach a state of spiritual ecstasy.

4. Dancing and Physical Activity (Chesed)

Physical activity can turn off the mind.

5. Meditation and Prayer (Geburah)

Maybe the most formal magick.

6 Visualization (Tiphareth)

Difficult to master.

7. Chemical stimulus (Netzach)

Powerful and yet dangerous.

8. Spiritual Ritual (Hod)

Best done in groups.

9. Writing & Poetry (Yesod)

A way to document your work.

10. Acting & Theater (Malkuth)

As a way to become the Gods

11. Fasting (Daath)

A difficult rite of passage.

12. Sacrifice (Gilluy Shekinah)

Offerings to the God's & Ancestors.

3 THE TREE OF LIFE

Tree of Life

Traditionally people use 10 or 11 Sephoroth on the Tree of Life. I use 12. Each Sephirot has a purpose, and has a higher or lower form. The lesser forms are easier to use, while the greater forms will be harder to create and may even be impossible for some people. I also use Jewish names when needed.

The Sephirot have candles to light and chants to use when working a ritual. The Tree of Life corresponds to many other things like the Planets and Angels.

Before the discovery of the modern planets in astrology, some parts of the tree of life were there to symbolize the universe beyond our solar system. I feel that including that into a modern system of magick is important. Here is a diagram that should explain how this manifests.

Now we will explore the meanings and uses for each Sephirot.

1 - Keter (Crown)

- * Knowing
- * Planet: Neptune
- * Sign: Pisces
- * Choir of Angels: Chioth Ha Qadesh (Seraphim)
- * Guardian Angel: Metatron "The Word of God"
- * Lesser: Empathy / Understanding
- * Greater: Telepathy
- * Candle: Violet

Chant: I ask the Angel's of Neptune, to bring this life back in tune.

The highest Sephirot on the Tree of Life is Kether, and is represented as the planet Neptune. The energy in Kether is concerned with knowledge and knowing. The Guardian Angel over this Sefirot is the Metatron, who acts as the direct voice of God. Calling upon these energies brings about empathy and understanding. At the highest level this Sephirot will allow direct communication through the clarvoiance.

To begin using this sphere, light a violet candle and repeat the chant.

2 - Chokmah (Wisdom)

- * Producing
- * Planet: Uranus
- * Sign: Aquarius
- * Choir of Angels: Auphanim (Cherubim)
- * Guardian Angel: Uriel "Archangel of Wisdom"
- * Lesser: Attraction / Insight
- * Greater: Creating
- * Candle: Grey

Chant: Angel's of Uranus. Without your light the night is nameless.

Chokmah is the second Sefirot in the Tree of Life. It exists in the orbit of the planet Uranus. The Sphere is home to the Choir of Angels Auphanim, and the Guardian Angel Uriel. Evoking Chokmah will attract your desires and give you insight into achieving them. When the stars are aligned Chokmah can create and manifest anything.

To start a ritual for Chokmah light a grey candle and recite the chant.

3 - Binah (Understanding)

- * Predicting
- * Planet: Saturn
- * Sign: Capricorn

Binah, the third Sefirot is called “Understanding”. Meditate on this sphere when you need Wisdom. The planet Saturn rules Binah, and is home to Archangel Raziel. Angel of the secret regions, and chief of the Supreme Mysteries, who is charged with guarding the secrets of the universe. The name “Raziel” means “secret of God” or “angel of mysteries.” Raziel is important in Kabbalistic and rabbinic lore, and in apocryphal writings, especially the book of Enoch. Raziel is best known as the keeper of the Sefer. In the Kabbalah, Raziel is an archangel assigned to guard the Tree of Life. The blessing of Binah is known as Predicting. Binah imparts Wisdom & Observation, and can allow you to see the future.

Chesed is called Mercy, and is home to Archangel Raphael, one of the principal angels in Judeo-Christian angelologies, accorded the rank of archangel. Raphael's name originates from the Hebrew rapha, which means healer or doctor; thus Raphael is "the shining one who heals;" also "the medicine of God." He is entrusted with the physical well-being of the earth and its human inhabitants, and, in Christian lore, he is regarded as one of the friendliest of the angels. Zadkiel is said to be the angel sent by God to stop Abraham from slaying Isaac. In the Zohar, Zadkiel is a chieftain along with Zophiel who assists Michael in the bearing of his standard in battle. Perhaps some will gifted with rapture and ascend. Even without death.

4 MAGIC SQUARES

The below Matrix's are known as a Magick Squares. So named because every row adds up to the same number, as do the diagonals. They have been used for astrological magick for centuries.

Before computers this was incredibly hard to calculate. I've been working with a friend of mine who has found a way to calculate arbitrarily large Magick Squares in micro seconds. You can now harmonize your CPU with these powers.

Check it out!
